

APPENDIX B

OSC COMMENT ON THE DISTRICT'S RESPONSE

Note 1

This audit determined whether school districts are ensuring that all food available to students during the school day and at school activities meets established nutritional guidelines to promote healthy eating habits and proper nutritional goals. To this end, we reviewed District operations in this area. The audit report did not report on whether “malfeasance, wrongdoing, fraud, mismanagement and/or abuse” is taking place. Rather, the audit’s conclusion reports on the extent to which the food choices the District provides for students conforms with its wellness policy and promotes healthy eating habits.
