

Bethpage Union Free School District

Connecting from Home to the Bethpage Computer Network

Why?

1. Your child will be able to start a project in school and continue to work on it from home
2. You will be able to review your child's work and see what projects he/she is working on
3. You and your family will have access to software that you might not have on your home PC
 - Microsoft Word
 - Microsoft PowerPoint
 - Microsoft Excel
 - Microsoft Publisher
 - Inspiration/Kidspiration
 - Geometer Sketchpad
 - Filtered Internet access (we use a product called BESS)
 - *Other titles will be added over time as we purchase them*

Limitations

1. You must have a PC/Mac with an Internet connection (dial-up or cable/DSL)
2. You cannot print to your home printer- You can only print while in school to a school printer
3. No sound is available over the connection- Sound takes up too much space and would really cause a problem for people who are accessing via a dial-up connection

How?

1. We have produced a CD-ROM that contains the software
2. Put the CD in your computer and wait
3. The CD will ask you a series of installation questions- Answer yes to each of them (this installs the Citrix plugin into your browser)
4. The CD will place a new icon on your desktop
5. After the install, double-click the new icon which says "Classlink Bethpage Connection Page"
6. This will take you to this screen:

Let's Get Started

My First Time

Is this your first time trying to connect to your ClassLink account from home? If so, click here.

Click Here

Back Again?

Click Here to Login

Click Here

Do **NOT** click here (this will attempt to reinstall the software) →

7. You will **click on the right side** and that will take you to the logon screen where your child can enter his/her username and password. You're in!

If you have any problems connecting, you can call ClassLink's help desk (1-888-963-7550 ext.201) between 7:30 AM and 7:00 PM, and they will be happy to assist you with getting access from home.

-----ENJOY-----
